

Latest Trends in Doctoral Education in Europe

Alexandra Bitusikova, Senior Advisor in Research and Innovation, EUA

Thomas Jørgensen, Senior Programme Manager in Research and Innovation, EUA

The objective of the presentation is to bring an overview of latest trends in the development of doctoral education in Europe with the main focus on quality and to introduce the EUA-Council for Doctoral Education. The first part will focus on main issues and challenges in doctoral education such as structures of doctoral education, new models of supervision, transferable skills training and quality as an overarching category. The second part will deal with activities of the EUA-Council of Doctoral Education and its latest initiative leading to Salzburg II principles.
